March 18, 2025

Chonburi, Thailand – March 18, 2025 – DayOne, a global leading data center pioneer, on March 17 has officially broken ground on its Chonburi Tech Park (CTP) Data Center campus in Amata City, Chonburi, marking a pivotal step in advancing Thailand's digital infrastructure.

With a USD 1 billion investment committed over the next few years, DayOne's hyperscale data center park in Chonburi province, southeast of Bangkok, underscores the company's long-term commitment to driving Thailand's digital transformation. This development strengthens Thailand's position as a regional hub for cloud computing, AI, and next-generation technology solutions in Southeast Asia.

From left to right in the ceremony photo:
Mr. Weerapong Duangpiboon, Director, Amata City Chonburi Industrial Estate Office;
Mr. Jimmy Yu, SVP, Strategy & Business Development, DayOne;
Mr. Teerawut Charoensuk, Deputy Governor, IEAT;
Mr. Pongpol Yodmuangcharoen, Secretary to the Minister of Industry;
Ms. Jamie Khoo, CEO, DayOne;
Mr. Viwat Kromadit, CTO & CEO, Industrial Estate Business Thailand, AMATA;
Mr. Phonnathorn Vongprom, Director, Regional Investment and Economic Center, BOI;
Mr. Thanawat Aroopan, Director, Digital Innovation and Technology Division, EEC

The CTP campus will be powered by 180MW of grid capacity and developed in two phases. Designed to enhance Thailand's competitiveness in the cloud and AI economy, the project will provide scalable, high-performance digital infrastructure. Spanning 122,000 square meters, the campus will incorporate advanced liquid cooling technology for optimal energy efficiency. Built for

scalability, the facility has future expansion plans to meet the growing demands of digital infrastructure.

Jamie Khoo, CEO of DayOne, addressing at DayOne Chonburi Tech Park Data Center Groundbreaking Ceremony

Jamie Khoo, CEO of DayOne, reaffirmed the company’s commitment to Thailand’s digital future: “This groundbreaking marks the start of a long-term partnership with Thailand and reinforces DayOne’s leadership in data center solutions. Backed by a robust supply chain, cost-efficient operations, and industry-leading know-how, our \$1 billion commitment will deliver state-of-the-art infrastructure capable of supporting AI, cloud computing, and high-performance digital services, positioning Thailand as a key hub for global digital infrastructure and technological innovation. We are proud to invest in Thailand’s future and collaborate with industry leaders to create a sustainable, next-generation data center ecosystem.”

The groundbreaking ceremony was attended by senior government and industry leaders, including Ms. Jamie Khoo, CEO of DayOne, Mr. Pongpol Yodmuangcharoen, Secretary to the Minister of Industry, Mr. Teerawut Charoensuk, Deputy Governor of the Industrial Estate Authority of Thailand (IEAT), Mr. Phonnathorn Vongprom, Director of the Regional Investment and Economic Center, Thailand Board of Investment (BOI); and Mr. Viwat Kromadit, CTO & CEO, Industrial Estate Business Thailand of AMATA. Their presence underscores the strong public-private collaboration driving Thailand’s ambition to become a premier destination for digital infrastructure investment.

Speaking at the event, **Mr. Pongpol Yodmuangcharoen, Secretary to the Minister of Industry**, emphasized the project’s strategic significance, “Today’s groundbreaking is not just about digital infrastructure—it’s about laying the foundation for Thailand’s rise as a digital powerhouse. DayOne’s investment is a resounding endorsement of Thailand’s potential, reinforcing our commitment to building a globally competitive, sustainable, and future-ready digital economy. Through strong government policies such as the Cloud First Policy, we are fostering an environment where data centers don’t just support businesses but power Thailand’s digital future.”

Mr. Narit Therdsteerasukdi, Secretary General of BOI, underscored Thailand’s attractiveness as a global technology investment hub. “Thailand’s strategic location, strong regulatory framework, and rapidly growing digital economy make it a destination of choice for leading technology companies. BOI fully supports major data center investments like DayOne’s, which will drive technological innovation, enhance regional connectivity, and strengthen Thailand’s digital economy.”

Mr. Teerawut Charoensuk, Deputy Governor of IEAT, reinforced the significance of this initiative. “Thailand continues to be a prime destination for high-tech investments, and this groundbreaking demonstrates our commitment to developing a world-class digital ecosystem. DayOne’s investment will drive economic growth, create high-value jobs, and establish Thailand as a center for digital innovation in the region.”

Mr. Viwat Kromadit, CTO & CEO of Industrial Estate Business Thailand AMATA said, “At Amata, we are committed to driving Thailand’s industrial and digital transformation by providing world-class infrastructure and a thriving ecosystem for global investors. The groundbreaking of DayOne’s hyperscale data center at Amata City Chonburi marks a significant milestone in strengthening Thailand’s position as a leading digital hub in Southeast Asia. We are proud to support DayOne in this endeavor and look forward to a future where technology and industry come together to propel Thailand’s digital economy forward.”

As Thailand advances its digital transformation, DayOne is set to play a pivotal role in the country’s expanding digital economy, empowering AI-driven industries, global cloud providers, and multinational enterprises across the region.

###

About DayOne

DayOne is a data center pioneer that develops and operates next-gen digital infrastructure for industry leaders who demand reliable, cost-effective, and quickly scalable solutions. Our cutting-edge facilities empower hyperscalers and large enterprises to achieve rapid deployment and enhance connectivity, driving transformative engagement and innovation as we shape the future of industries. DayOne's data centers are located across key markets, including Singapore, Johor (Malaysia), Batam (Indonesia), Greater Bangkok, Hong Kong SAR, Tokyo, and beyond. Headquartered in Singapore, DayOne's leadership team draws on over two decades of industry experience and a track record of building Asia's largest data center business. With DayOne, they have created the SIJORI (Singapore, Johor, and Riau Islands) market as a global data center hub.
